

Unlock the Magic Boot Camp!

"Bottom line, our revenue DOUBLED last year, and the skills, contacts, and productivity of the new hires made bringing in and taking on the additional work a breeze. Now I am much more relaxed, love my business, and have more time available to devote to relationship building and sales while my employees handle the day to day operations. **If someone would have told me that all this could be accomplished in a year, I would have not believed them,** but it is amazing how things can work out with the right coach behind you."

Floyd Dillman
President and Founder,
Event Engineering, Inc.

"I have done quite well on my own for the past two and half years but it was time for a change and I needed help.

I was ready to expand and grow the business and I wanted to find a coach who had experience in growing a successful business, would be compassionate, loving, kind, hold me accountable, have integrity, and expand my mind in an uncomfortable, think and operate outside of the box kind of way.

When I met with Jeff in our initial interview, he met all if my criteria.

Jeff uses a whole, heart-centered learning approach and coaches with encouragement, praise and wisdom. I truly enjoy working with him. "

Jeff Youngs

For Jeff is an author, consultant and business and executive coach. He serves large and small companies by creating effective teams, enhancing leadership and creating accountability for owners and senior leaders.

As an entrepreneur, Jeff has founded several businesses, including a successful creative communication agency serving FORTUNE 500 companies - concentrating on Employee Engagement.

Along with his successes, Jeff has also experienced many setbacks that some would call "failures". He prefers to refer to them as RESETs. Opportunities to go again, only this time even better.
